Seated on Ground:

Sorry the printing has to be so small. I would suggest that you place the top edge of this paper just under the heads of the row you are looking at, as you follow the names. Or, better still, find some one else who is interested in knowing these people, and ~~each~~ read the names while the other looks at the faces, and vice versa!

It's a good picture, isn't it?

All are here except Billy Radcliffe, who spent July in Honolulu with his grandmother, and Betsy Hindman who was sick. And, of course, the furlough folks:

- John Underwoods
  - Kinsters
  - Vauhierops
  - Foremans
- the Hills had just left.
